Summer 2017

June-Aug

Coming soon... *New Website!*

We are currently in the process of updating our website to better reflect our practice and provide patients with more online services. Our new site will launch sometime in June and we will be continuing to add more information and features throughout the summer. Once our site is complete, we will be offering the following additional online services:

truForm™ Online Patient Registration:

Instead of having to print out paperwork or fill it out in our office, patients will now have a secure way of entering and submitting paperwork to our office prior to their visit at their convenience, using their computer, tablet, or mobile device. This can be used for both new patients and existing patients needing to update their information.

Online Payments:

No more waiting until our office is open to pay your bill! In addition to making payments via mail, phone, and in person, patients will be able to pay their account balances online anytime without having to plan around our variable office hours.

WELCOME TO THE **FUTURE** OF X-RAYS

Dr. Chiang has added the **NOMAD Pro 2™ Handheld X-ray unit** to our office's array of digital x-ray machines. This nifty device allows our dental assistants to safely remain in the operatory room with patients while they are taking x-rays. What does using a handheld x-ray machine mean for our patients? Since the assistants don't have to leave the room to operate the x-ray machine, patients spend significantly less time holding the x-ray sensor in their mouth and less time trying to be a statue. This is extremely helpful for patients who struggle with a strong gag reflex, as well as children who have difficulty holding still. Be sure to check out the **NOMAD Pro 2™** at your next dental visit!

Dr. Chiang's Continued Education Courses:

June 29th- July 1st: *Periodontal & Implant Continuum I*; Taipei, Taiwan.

July 11th-16th: *Advanced Bone and Soft Tissue*; Urban Regeneration Institute, Budapest, Hungary.

Aug 24th-27th: *Periodontal & Implant Continuum II*; Taipei, Taiwan.

Aug 31st-Sep 3rd: *Minimal Tooth Preparation Technique*; Kois Center, Seattle.

Meet Dr. Chiang

Dr. Chiang was born and raised in Taipei, Taiwan. He immigrated to the United States in 1991 and earned his undergraduate degree in Biochemistry from The University of Texas at Austin in 1994. Then in 2000, Dr. Chiang earned his dental degree from The University of Texas Health Science Center at San Antonio. Dr. Chiang and his family, relocated to Pullman in 2007 after 11 years in Texas. He loves practicing dentistry, hiking, tennis, baseball, and chess. Dr. Chiang is a member of the Chinese Chamber of Commerce, the American Dental Association, and the American Academy of Oral Medicine, Surgery and Prosthodontics.

Dr. Chiang is committed to providing the greatest value to his patients by seeking the highest level of dental education in both functional and aesthetic techniques. He is highly honored to receive the Best Customer Service award with a 5-star rating from the American Dental Association.
